Malformations (ERN ITHACA)

Registrations for the 31st European Dysmorphology Online Workshop are open!

22-25 September 2021

Registrations are open until June 18th

Why attend EuroDysmorpho?

EuroDysmorpho Workshop aims to bring together young clinical geneticists and trained dysmorphologists to share their professional experiences and present their clinical challenges.

EuroDysmorpho is open to any presentation in the field of human development: large series of patients and single, illustrative case reports are equally welcome!

How to register and submit an abstract?

Would you like to submit an abstract and discuss it at the Workshop? Follow the instructions and click on the button below:

3 stages to note:

- **May 1st to June 18th:** Registrations and abstracts submission
- **June 18th to July 10th:** Submitted abstracts will be considered for approval
- **September 1st to September 15th:** Connection links for the event will be sent

You will be notified by email if your abstract has been accepted. A payment link will be sent.

There are two rates which include access to the workshop, and the Abstract Book (the book will be provided after the workshop):

- **75€**: Regular rate
- **50€**: Special rate for young geneticists

- **August 20th to September 10th**: The access links to the meeting will be communicated to you after payment has been validated.

Only one abstract is mandatory per participant, and optionally, you may submit (in addition to your first abstract or not) an unsolved case to Solve RD: Unsolved cases will be presented and discussed on **Thursday 23 September**.

**Registration and Abstract
Submission**

I want to attend the Workshop without submitting an abstract :
Would it be possible?

This will also be possible for ITHACA network and our partners. Just follow the link provided in the bottom below, open to all, and fill in the form properly to identify yourself.

The organising committee will provide you with the access link at the beginning of September.

Registration through the form will be closed at the same time as abstract submission, please note that you have to register from **today until 18 June 2021 the latest**.

Please note that **registrations via the form are not automatically accepted: you must be a healthcare professional or scientist and your activity must be related to the Workshop issues**.

Access to the meeting is not guaranteed : all registrations via the form will be checked and assessed.

Please note that no fees apply if you do not submit an abstract, click on the button below to access the form.

**Access the registration
form**

2021's Edition Guests

This year we will have the pleasure to welcome, for a 45 min presentation for each talk spread over 3 days of the Workshop:

Pr. Jill Clayton-Smith (UK):
"Angelman syndrome"

Pr. John Graham (US):
"Dysmorphology where do we come from and where are we going in the 21st century"

Dr. Emmanuelle Lesieur (FR):
"Further delineation of the normal fetal face"

Pr. Florence Petit (FR):
"Genetic & epigenetic control of limb development and its anomalies"

Pr. Alexandre Reymond (CH):
"State of the art in 16p11.2 rearrangements"

Pr. Bekim Sadikovic (UK):
"Epigenetic signatures in syndromes"

September 25th 6:00 PM **2021's Best Presentation Prize!**

EuroDysmorpho **Organisation & Scientific Coordination**

Pr. Koen Devriendt, Pr. Claude Stoll, and Pr. Alain Verloes
